

Blueberry Class Home Learning

Due in 16th October 2019

In class we have been talking about how and when to use paragraphs in our work to make it clearer and easier to read and understand. The writer helps the reader by grouping together thoughts or ideas that go together.

In stories paragraphs can be used to:

- Introduce new characters
- When someone new starts to speak
- If something new happens
- Change the location or setting
- Move between time e.g. flashbacks.

For your home learning this week please design a poster which clearly explains when a writer should start a new paragraph. You can use whatever medium you like to create your poster.

Any questions please ask ☺ .
