

Mango Home Learning Wednesday 9th October

It is a pleasure to receive so much of the homework completed and on time this year. It really enables the children to get on with projects the home learning feeds into. Last Friday we began our designing our bags that will show our pictures of home. These will also tie in with a creating our poems and this week's home learning. I'll keep you posted on how they will all tie in together later in the year! Tomorrow we will be supporting "Young Minds" with their campaign #helloyellow and we ask the children to wear an item of yellow with their school uniform and donate £1 to the charity. We will be looking at mental health in class to support this.

The mathematics topics this week are multiplication, division and problem solving using these.

Those children registered on "Lexia" will have information that should allow you to log on at home; please let me know if it is still not working.

Homework -

- Yesterday in science we looked at the differences between irreversible and reversible changes to materials. For your home learning please either bring an investigation to school (be mindful of school Health and safety please) or evidence of an investigation carried out at home (photos) that show one or both of these changes
- 5 spelling sentences please
- Please continue reading and recording it below
