

### **Apple Class home learning:**

Continue with your reading and phonics (free activities available on [www.phonicsplay.co.uk](http://www.phonicsplay.co.uk) Phases 3 and 4 for Reception, Phases 4 and 5 for Year 1). Share lots of stories and poems/rhymes and act them out. Draw pictures and write about them. Practise recognising, ordering and writing numbers to 20 (Year R) and to 100 (Year 1) - make sure we write those numbers the correct way. Use a range of media eg. paintbrushes and water, chalks, pens, crayons, playdoh, to form numbers. Why not practise handwriting in this way too? Games and activities that build on number recognition and simple addition, subtraction are a great way to practise maths too (see general ideas above). Don't forget to watch Numberblocks daily too, all episodes are available on BBC iplayer.

**Please choose from the following Curious Curriculum activities to complete this week:**

- Draw/Paint your favourite farm animals. Can you add some facts about them?
- If you have any farm animals at home, can you find different ways to sort them or play farms. What does the farmer do?
- Plant a seed in a clear container. Think about what a plant needs to grow and observe changes seen. Draw and record what you see - maybe keep a plant diary?
- Find out what a farmer might grow on a farm and what it is used for.

### **Step Back in Time Project**

The whole school will be taking part in this project. Research a person from history and be ready to introduce them to your class when we return.....

Can you create a costume from items you have at home? What about any props? How much can you find out about them? Could you draw them? Can you create a fact file all about them?

## **General Ideas to Support Learning:**

### **English Activities**

e.g. write a letter to a relative, design a postcard from a character from your reading book, record your reading for today, read your reading book, write a story for someone at school, practise your spellings.

### **Mathematics activities**

e.g. TTrackstars (test your friends and family), BBC iplayer: Numberblocks Espresso (username: student29531 password:bubbles), do some baking (measuring), make a weather chart, play card games and board games, practise telling the time (o'clock and half past).

### **Outside activities**

e.g. be a wildlife detective (science and art), dog walking, gardening, junk modelling, playing, bike riding, throwing and catching

### **Mindfulness activities**

e.g. playing board games with your family, be creative, learn how to play an instrument, write to / facetime a friend, read, take up yoga (Cosmic Kids or Peace Out on youtube), drawing.

Please share what you have been doing with your class teacher via email

[scullingworth@ickleshamcp.e-sussex.sch.uk](mailto:scullingworth@ickleshamcp.e-sussex.sch.uk) or via the office

[office@ickleshamcp.e-sussex.sch.uk](mailto:office@ickleshamcp.e-sussex.sch.uk)

general messages will be on the website or shared by teacher2parent

*Complete any of the above activities in your home learning book, it has been proven that a structured day will help with the isolation so maybe try to complete one activity from each section per day*
